Single Use Instruments

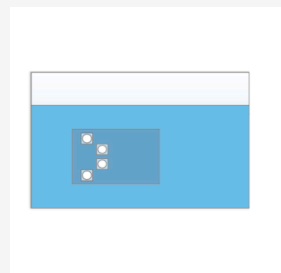

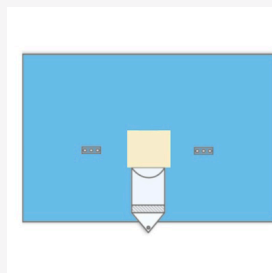

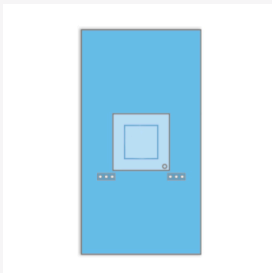

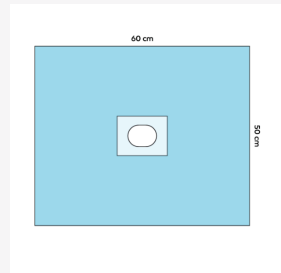

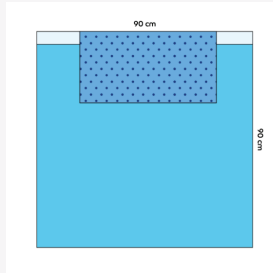

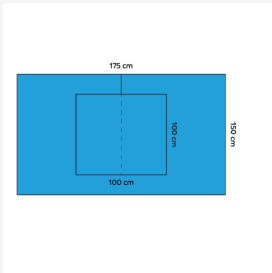

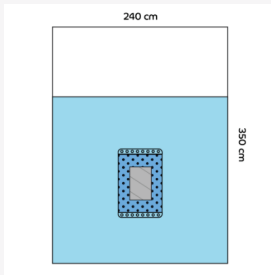

Additional Products

Medical Drapes

A versatile range of sterile and non-sterile drapes designed to support protection, coverage, and infection control during clinical procedures.

Offering:

- Wide range of non-adhesive and self-adhesive drapes
- Available in sterile and non-sterile options
- Includes fenestrated, utility, and reinforced drapes
- Multiple sizes and materials (SPP, SMS, reinforced) to suit different procedures
- Designed for reliability, coverage, and ease of use in clinical settings

Pre-filled Syringes

Ready-to-use pre-filled saline syringes designed to support safe, accurate, and efficient IV flushing in clinical environments.

Offering:

- Ready-to-use pre-filled saline syringes for efficient IV flushing and clinical use
- Designed to support safe and accurate delivery, reducing preparation time and dosing errors
- Available in multiple volumes (e.g. 3ml, 5ml, 10ml) to suit different applications
- Features no-reflux technology to help minimise the risk of catheter blockage
- Produced using latex-free, DEHP-free, and non-toxic materials for patient safety
- Options for sterile field compatibility with packaging suited to different clinical environments

Embra® AmpSnap Ampoule Breaker

A simple, precision-engineered mechanical tool designed to eliminate the risk of sharp injuries and glass splinters during the opening of glass ampoules.

Offering:

- **Advanced Puncture Protection:** Safely encapsulates dangerous glass splinters inside the chamber upon opening, significantly reducing the risk of accidental finger cuts and cross-contamination.
- **Effortless "Snap" Action:** Utilises a highly efficient, single-handed mechanical lever design to deliver a quick, clean, and precise snap of the ampoule neck every time.
- **Compliant Sharps Disposal:** Manufactured using 70% biobased plastic derived from plant sources, this single-use disposable product can be safely discarded directly into a standard sharps container alongside the broken ampoule head.
